Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 13-24,26,29 and 30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Su [4468229] in view of Sheets Jr. et al (6187042) or Inchinole [6878792] .

Su discloses a medical device that has been treated with an azo dye. The dye is covalently bonded directly to the medical device. Su does not disclose the bonding of a dye having blue light absorption properties. Sheets and Inchinole teach the use of a dye having blue light absorption properties bonded to a medical device. To bond a blue light absorption azo dye to the lens/device of Su to provide a lens having light transmission properties more closely resembling that of the human lens would have been obvious from the teachings of either of Sheets or Inchinole.

Response to Arguments

Applicant's arguments filed 10/9/2006 have been fully considered but they are not persuasive. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
